ONE FREE Bender Supplied for every \$100,000 of Qwik Duct Templates, End Bells and/or Transition Couplings ordered. Orders can be assorted and accumulated for a maximum period of 12 months from date of first order. If Bender's are not available and customer achieves above goal he will receive a 2% credit on Template, End Bell and/or Transition Couplings purchases during the period. Customer must accept this offer with a dated signed agreement.

It took two men a full day to assemble the first 20 feet. It required 15 3½" conduits and one 2½" conduit to turn up for a tap box, a few feet away, two of the 3½" and one of the 2½" had to turn up to go in to separate CT cabinets and then turn back down to continue the full length. On the day of trenching we just moved this section over, and it took four men 4 hours to assemble the remainder of the run. It should take another 12 man hours to make the connection between the 16 conduits the existing stubs out of the building.

Customer must satisfy all codes and owners' specifications.
