

Grid-System Box Support Plate

For Medical Centers, Hospital Rooms Requiring Power & Lighting, Emergency Power, Lighting and Alarms

NEW

Cat# CSP-DJB
(19.5" x 19.5")

Load rating of conduit and box support plates is associated with load rating of box and mounting hardware.

Bend tabs back on reverse side to install plate vertically with up thru 1/2" hole in center for horizontal mounting.

Vertical Installation Shown

- **Accepts 4", 4 1/16", & 5" square boxes up thru 12" x 12" junction boxes**
- **Hole in center for up thru 1/2" rod for horizontal support**
- **Allows faster, easier trouble shooting and organizing systems on jobs.**
- **Bendable tabs at centers of outer edges on all four sides receive up thru 1/2" rod for vertical support**
- **Can mount two or more systems on same plate without cable and boxes interfering with each other.**
- **4 Large elliptical holes allow for lining up box & plate for fast easy access in/out back of the box.**
- **Mount boxes above & below the plate when installed horizontally.**

Saves Over 2 Hours per Each Installation

Customer must satisfy all codes and owners' specifications.
